## BASIL

Nötr Manav Reyonu / Neutral Greengrocery Rayon

Reyhan modeli meyve ve sebze teşhiri için özenle tasarlanmıştır. Süpermarket ve hipermarketlerin önde gelen tercihlerinden olan Reyhan modeli dik tip duvar reyonu veya ada reyon olarak kurulabilir. Opsiyon olarak sunulan otomatik zamanlayıcı ile devreye giren sisleme sistemi ise hem evaporatif soğutma sağlar, hem nemlendirme yapar. Böylece teşhir ettiğiniz meyve ve sebzeler daha uzun ömürlü olur.

The Basil model has been designed with care for displaying vegetables and fruits. The Basil model, which is leading preferences of supermarkets and hypermarkets, has 2 versions; as vertical wall side or island rayon. The fogging system, which operates through automatic timer that is supplied as option, provides both the evaporating chilling and the humidity. In this way, the fruits and vegetable you display would have longer shelf life.
